		Cell:	drilling cell		Type :									K	aizen ID : 22	9		
Unit Name: Varad Engineering,					Operation: drilling													
Kaizen Theme: To prevent customer complaint & in-house rejection due For PIN BR PED				e to drilling length U/S or O/S Idea: Method change for clamping of component & inspection														
				Counter Measure									custome	ner complaint 3 nos				
present clamping arrangement is not ensuring correct resting of component. And checking is being done by vernier which is difficult to check				added clamping arrangement in fixture so that it will ensure proper resting o component. Simple pin type gauge prapared to check component easily			of Ta					zero
