| Unit Name : SN | IASH INDUSTRIES, Pune | | Operation : Insert screw damage at the time of removal of insert | | | | | | | | | | | | | | |
| Kaizen Theme: Ins | ert Removing of BM Hous | ing by using Metal Rod | Idea : Immediate removal of M5 insert thread from BM Housing on machine itself | | | | | | | | | | | | | | |
| Problem / Present Sta | us | | Counter Measure | | | | | | Benchmark : Remov | | | | moving | ving of insert by using Metal Rod | | | |
| Insert Damage,Material on insert while removing of M5 insert from rejection part, space consumption,No use of rejection insert part | | | Metal rod to be arranged with M5 thread for removing of thread by operator on machine | | | | | Targe | Target : 100 | | | | 0% Insert remove on machine | | | | |
| part, space consumptio | | i part | | | | | | Start : | Start : 17/0 | | | | l | Finished : | 04/01/2016 | | |
